

# Mysticism of National Socialism

Daniel 2:43 They shall by marriages and affinities think to make themselves strong: yet shall they never be joined in hearts.

*“There is no longer any political question at issue here. This thing cannot be judged or estimated by political rules or principals. It is “INIQUITY” under a political mask. It is not something to be brought before the bar of world history but rather something that has to be dealt with by the judicial administration of each country”. Dr. Josphe Goebbels Speech delivered in Nurnberg on September 13, 1935 at the Seventh National Socialist Congress*

The concept of National Socialism was conceived during 19th century European Occult Revival. It was from these meetings Hitler was recruited. It was from these meetings the plan to destroy Christianity by deception transpired.

Vladimir Lenin praised Dr. Pavlov for his experiments on Classical Conditioning in speech to Russian Youth League. Many historians record after Lenin seized Kremlin he sent for Pavlov to redirect his experiments on “Conditioned Response” from dogs to humans. After WW2 Russian scientists were brought to U.S. under “Operation Paperclip”.

The “Mystical Origins of National Socialism” below mentions names involved in 19th Century Occult Revival many historians never mention. Among these names are Paul de Lagarde. Without researching Christine’s genealogy given the topic thought this was interesting.
